ssherazi@gmu.edu | (703)-817-5237 | www.linkedin.com/in/basitsherazi

EDUCATION

George Mason University – College of Engineering and Computing

Fairfax, VA

Bachelor of Science; Information Technology

Awards/Honors: Dean's Honors List

**Expected 2029
(2025 - Present)**

Relevant Coursework: Network Fundamentals, Introduction to Cybersecurity, Operating Systems and Administration, Security Policy, Ethical Hacking, Computer Forensics, Cryptography, Secure Programming, Data Communications, Database Fundamentals, Linux Administration, Cloud Security, Python for IT, Web Development

EXPERIENCE

Geek Squad Technician

Bestbuy Co., Inc

November 2025-Present

- Technical Tier 1 & Tier 2 Support; perform systematic troubleshooting, applied listening, and technological assessment, to determine effective solutions to complex hardware/software inquiries.
- Restoration & Migration of Systems: Provides high quality hardware repairs and performs seamless migration/restore of operating systems while maintaining high levels of customer satisfaction (NPS).

AI Data Specialist

RWS Group

August 2025 - Present

- Curate and annotate multi-modal datasets for AI model training, ensuring data quality and alignment.
- Conduct preference model training through systematic pairwise comparisons to improve output quality.

PROJECTS

Personal Developer Portfolio Website

Personal Project

- Designed and developed a modern, responsive portfolio website to showcase projects, skills, and professional experience. Utilized HTML5, CSS3, and JavaScript for front-end development, ensuring cross-device compatibility and accessibility.

DevOps Fullstack Management Project

Personal Open Source Project

- Developed full-stack task management application with React, Node.js, and MongoDB; implemented CI/CD pipeline with GitHub Actions
- Integrated monitoring with Prometheus/Grafana and implemented comprehensive testing, security scanning, and deployment automation

Secure Password Manager API

Personal Cybersecurity Project

- Developed REST API with zero-knowledge architecture implementing AES-256 encryption and Argon2 hashing for secure credential storage and management
- Implemented JWT-based authentication with refresh tokens, rate limiting, brute force protection, and comprehensive audit logging for security compliance

LICENSES & CERTIFICATIONS

- | | |
|--|--------------------|
| • CompTIA Security+ | <i>In Progress</i> |
| • CompTIA Network+ | <i>In Progress</i> |
| • NSE 1, Fortinet | <i>2026</i> |
| • DSPy: Build and Optimize Agentic Apps , DeepLearning.AI | <i>2025</i> |
| • LangChain for LLM Application Development , DeepLearning.AI | <i>2025</i> |

SKILLS & ACTIVITIES

- **Systems & Infrastructure:** Linux Administration , Operating Systems & Admin , Windows/macOS Migration , Cloud Security , Network Fundamentals.
- **Security & Compliance:** Ethical Hacking , Cryptography , Secure Programming , Federal Cybersecurity (CISA CDM Program) , AES-256 Encryption.
- **Software & DevOps:** Python for IT , React/Node.js , GitHub Actions , CI/CD Pipelines , Prometheus/Grafana monitoring.
- **Methodologies:** SAFe Agile , Scrum , Data Normalization & Visualization , Technical Consulting.
